

## Rescue Rita's Spy Ride

### Directions

Long car trips can be soooo boring! But I've got the perfect cure for the backseat blues! Keep your eyes open for the items on this list. Once you find them, check them off. Make lots of copies of this sheet for everyone in the car. The first one to find everything on the list wins!

### Some more things to find!

Once you've found everything on the list, see what else you can find.

1. Print out a map of the United States. See if you can find the license plates from every state. Color in the state once you find them.
2. Street signs from A to Z. Find 26 different signs that have each letter of the alphabet. Start with A and see if you can find a new sign with the letter B, C, then all the way to Z!
