

Be a Co-author... help Marisol finish her I SEE YOU collage!

In the story we learn some of the essential jobs for a community to function (trash collector, nurse, doctor, food worker, police, fire fighter, cashier, pharmacist, bus driver, landscaper, farm worker). But what about Mami? Is being a mom to Marisol and Pepito essential?

In your own copy of the book, using a white or light color permanent marker write the essential worker names (listed above) Marisol has identified on the eyelashes of the big eyes. Be sure to include Mami! Your book's copy will be unique and unlike any other reader's copy.

Alternatively, you can write in the names of the essential workers of your own home or school community on the blank eyelashes of the eyes printed on the back of this page. Then, draw or paste pictures of these essential workers on the blank hearts.

Display your I SEE YOU! art at home or school!
